**Subject:** RE: MDOT SOW

Hi Lori and Leslie,

As discussed at our project coordination meeting last week, the EPA and DEQ reviewed the MDOT SOW and are requesting that some more grid points are added on for sampling. Can you create a figure that shows the currently proposed grid sampling points on top of the topographic contours on the property? We can discuss at our work session tomorrow and show you where we would like to see some additional borings added.

Thanks,
